## WHO ARE WE?

We offer a new and truly unique experience in the field of educational travel. Our marine eco tours to South Africa will get you and your students closer than ever before to the sharks and other marine creatures of False Bay.

## WHY CHOOSE US?

- ✓ A great opportunity for anyone wanting to study study sharks or wildlife photography. Our course gives students a hands-on experience highly valued by universities and conservation groups.
- ✓ Fully trained staff. Our staff consist of fully-qualified teachers, shark specialist marine biologists and qualified PADI dive masters.
- ✓ We make it as easy as possible for you. We take care of everything including travel, accommodation and providing meals. We also help with promoting your trip in school and all risk assessments.
- ✓ Value for money. Your tour price includes everything you will need with no nasty price changes, giving you simplicity and peace of mind when travelling with a large group of students.

**GREAT FOR UCAS**

## OUR ACCOMMODATION

Our accommodation centre is located right on the beach with private gardens and students are housed in dormitory rooms

## CAGE DIVING

Brave participants will have the opportunity to experience sharks up close from the safety of the cage

## CONSERVATION

Students will look first hand at the impact plastic waste is having on our oceans and coastlines

**ALL MEALS INCLUDED**

**ALL EQUIPMENT PROVIDED**

## CITIZEN SCIENCE

Once your classroom sessions, lead by our marine biologists, are complete you'll take to the water to put your knowledge into practice with under water surveys of the marine environment

**DESIGNED FOR KEY STAGE 4 & 5 STUDENTS**

## SIGHTSEEING IN CAPE TOWN

Your tour also includes a day trip looking at the attractions of this incredible city including an ascent up Table Mountain

## TAKE A LOOK AT OUR TYPICAL ITINERARY

- DAY 1** Land at Cape Town and head to accommodation centre. Orientation meeting and tour of the local area. Introduction to False Bay classroom session followed by evening BBQ.
- DAY 2** Classroom session on Biodiversity and endemic species identification including benthic shark egg hunt. Wetsuit and equipment fitting followed by introduction to free diving and data collection in a tidal pool.
- DAY 3** Head to Cape Town and take the cable car up the iconic Table mountain before spending the evening at the V&A waterfront to try the local cuisine.
- DAY 4** Classroom session on the sharks, skates and rays of the Cape Peninsula. Take to the water at Boulders beach to swim amongst the penguins and study their behaviour. Evening classroom session on the Great White Shark and its predation on the young pups of Seal Island.
- DAY 5** Up early for your half-day Cage Dive experience. Get inside the cage and see sharks interacting in their natural habitat. If you are lucky enough, you may even see their now infamous breaching behaviour. Spend the afternoon engaged in local conservation efforts and help to eliminate plastic waste from the shoreline.
- DAY 6** Snorkel with seals and explore the kelp forests in search of the elusive Cape Clawless otter. Data collection exercise focussing on the sharks of the shallows including the Pyjama shark.
- DAY 7** Spend the day at the Cape Point Nature Reserve studying the terrestrial wildlife including the Baboon troops and reflect on your experiences whilst taking in some breathtaking views. Final classroom session focussing on how to keep conservation as our highest priority upon your return to the UK.
- DAY 8** Time to purchase any souvenirs and pack up the accommodation before heading to the airport for your flight back to the UK

Visit our website [www.cape-ed.com](http://www.cape-ed.com) for more information

Each trip is unique and we can offer trips all year round. False Bay changes with the seasons and attracts all manor of creatures depending upon the season.

Some species such as the Humpback and Southern Right whales migrate in large numbers during the winter months to the temperate waters of False bay and surrounding areas.

Great White Sharks occur in the bay all year round however during the winter months they aggregate around seal island, a permanent residence for more than 70,000 Cape Fur seals.

Boulders beach is home to the endangered African penguin colony where they reside all year round.

Along with the Cape clawless sea otter, the peninsula is also home to many sea birds and terrestrial animals such as baboons.

Participants will need a good level of fitness and swimming ability as well as a keen interest in animals and the marine environment.
